Since June 1, 1897, date of gold bond mortgage, the total amount of old bonds retired has been \$37,094,000. The net result is an increase of \$6,750,000 in the bonded debt and the saving in annual interest charges of \$1,062,040.

A detailed statement of the funded debt is given on page 11.

Statements appended to this report show the financial results in detail.

Comparison with the previous year shows the following results:

Earnings from freight traffic.....	increase \$1,400,294.34.....	7.14 per cent.
Earnings from passenger traffic.....	decrease \$ 344,114.17.....	5.06 per cent.
Earnings from mails, express, etc.....	increase \$ 120,437.51.....	4.22 per cent.
Gross income from operation.....	increase \$1,176,617.68.....	4.02 per cent.
Number tons moved, revenue freight .....	increase 2,527,050.....	11.74 per cent.
Number of passengers carried .....	decrease 397,411.....	6.68 per cent.

The ton mileage, revenue freight, increased 1.17 per cent., the average haul per ton (168.5 miles) being lower than the average during the preceding ten years, due mainly to a decrease in anthracite coal and grain shipments; the mileage of loaded cars decreased 1.80 per cent.; the mileage of freight trains decreased 6.90 per cent. The average load per freight train mile, revenue freight, was 576.5 tons, increase 8.67 per cent. The average rate per ton mile was 0.517 cent; last year 0.489 cent.

Passenger mileage decreased 16.95 per cent. The average rate per passenger mile was 2.07 cents against 1.81 cent last year. In 1901 there was a large movement of passengers to the Pan American Exposition.

## EXPENSES.

The operating expenses, including all taxes, new equipment and betterments, were

In 1902 .....	\$21,989,064.....	72.22 per cent. of earnings.
In 1901 .....	20,210,229.....	69.04 per cent. of earnings.
Increase.....	\$ 1,778,835	

Operating expenses in 1902 included the following charges for extraordinary expenditures: for new equipment purchased, \$1,423,673; for new side tracks, \$203,144; for construction and betterments, \$2,768,788, which latter expenditure may be summarized as follows:

New shops, Collinwood .....	\$955,937
New passenger depot at Chicago and other station buildings.....	879,199
New freight houses, Chicago.....	175,430
Low grade line, Plymouth to Doughton .....	134,468
Docks, slips, ore and coal handling plant, Ashtabula Harbor.....	382,972
Separation of grades.....	110,276
New bridges, track tanks and other betterments.....	130,486
Total.....	\$2,768,788

A new passenger station has, during the year, been in process of erection on the site of the former station, Van Buren Street, Chicago. This work is done jointly with the Chicago, Rock Island & Pacific Railway Company. The train shed, waiting rooms, etc., will be ready by the first of June next and the entire building will be completed during 1903.

The construction of a new low grade line on the Franklin Division, extending from Plymouth to Doughton, 47.6 miles, built jointly by this company and the Mahoning Coal Railroad Company, has been pushed rapidly; a part of it is now in use and the whole will be in the fall of 1903.

In 1901 the erection of new shops at Collinwood was begun and will be completed during the year 1903. The locomotive shops are now in use. When all the buildings are finished, these shops, with others on the road, will provide adequate facilities for the maintenance of the company's equipment.

As will be seen by the Balance Sheet, Bills Payable have been increased during the year \$1,000,000. Against this increase the company has acquired ownerships as follows:—96 per cent. of the entire capital stock of \$5,000,000 of the Indiana, Illinois and Iowa Railroad Company; 50 per cent. of the entire capital stock of \$1,500,000 of the Detroit, Toledo and Milwaukee Railroad Company; and 50 per cent. of \$2,000,000, new stock of the Pittsburgh and Lake Erie Railroad Company;—at a total cost of \$5,678,000. Such cost was \$4,678,000 in excess of the increase in Bills Payable, and was paid out of the company's current means.

The main line of the I., I. and I. runs from a connection with this company's line at South Bend, Ind., via Kankakee and Streator to Seatonville, Ladd and Churchill, Ill., a distance of 194 miles—with trackage right of 6 miles to Zearing, Ill. It has also a leased line of 39.5 miles, from South Bend, Ind., to St. Joseph, on Lake Michigan, and several branches—the total line operated being 252 miles.

The D., T. and M. line, 133 miles in length, runs from Allegan, Mich., on this company's Grand Rapids branch, via Homer, Jerome and Tecumseh to Dundee, Mich., where it connects with other roads.

The new stock of the P. and L. E. was issued at par, and the amount acquired was this company's allotment thereof, founded upon its previous holding. Its majority ownership is thereby preserved.

The results of operation are shown in detail in the financial and statistical tables appended.

WILLIAM H. NEWMAN,  
PRESIDENT.

CHAUNCEY M. DEPEW,  
CHAIRMAN.
